# WRITTEN OPINION OF THE INTERNATIONAL SEARCHING AUTHORITY

International application No.

PCT/FI 2004/000487

Bo	ox No. I Basis of this opinion						
1.	With regard to the language, this opinion has been established on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item.  This opinion has been established on the basis of a translation from the original language into the following language,  which is the language of a translation furnished for the purposes of international search (under Rules 12.3 and 23.1(b)).						
2.	With regard to any nucleotide and/or amino acid sequence disclosed in the international application and necessary to the claimed invention, this opinion has been established on the basis of:  a. type of material  a sequence listing						
	table(s) related to the sequence listing						
	b. format of material in written format in computer readable form						
	c. time of filing/furnishing  contained in the international application as filed.  filed together with the international application in computer readable form.  furnished subsequently to this Authority for the purposes of search.						
3.	In addition, in the case that more than one version or copy of a sequence listing and/or table relating thereto has been filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.						
4.	Additional comments:						

## WRITTEN OPINION OF THE INTERNATIONAL SEARCHING AUTHORITY

International application No.

PCT/FI 2004/000487

Box No. V	Reasoned statement applicability; citation	under Rule 4 is and explan	3bis.1(a)(i) with regard to novelty, inventive step or industrial nations supporting such statement	
1. Statemer	nt			
Novel	ty (N)	Claims	1-13	YES
		Claims		_ NO
Invent	ive step (IS)	Claims	1-13	YES
		Claims		_ NO
Industr	rial applicability (IA)	Claims	1-13	YES
		Claims		NO

### 2. Citations and explanations:

The invention relates to:

- a method for fire fighting,
- -a rescue boom
- -a nozzle of a piercing tool for spraying a fire extinguishing medium.

The object of the invention is to provide a novel improved method for fire-fighting as well as a rescue boom and a nozzle of a piercing tool to be used therein.

Documents cited in the International Search Report:

- D1) EP 1369145 A1
- D2) US 5301756 A1
- D3) US 2993650 A1
- D4) US 5253716 A1
- D5) US 5913367 A1
- D6) US 4485877 A1
- D7) CN 1391966 A

The documents cited in the International Search Report represent the prior art. The claimed invention stated in claims 1-13 is not considered to be anticipated by these documents. None of the documents or any relevant combination of them reveals a method for fire fighting, a rescue boom and a nozzle of a piercing tool spraying a fire extinguishing medium.

According to the arguments stated above, the invention claimed in claims 1-13 is novel, considered to involve an inventive step and has industrial applicability.
